

# LightSEC 2025

## 6th International Workshop on LIGHTWEIGHT CRYPTOGRAPHY FOR SECURITY & PRIVACY

SEPTEMBER 01-02 2025

CONRAD İSTANBUL BOSPHORUS BEŞİKTAŞ, İSTANBUL, TÜRKİYE

LightSEC 2025 focuses on novel research addressing security, privacy, and trust under lightweight constraints—such as limited computational power, memory, energy, key sizes, and communication bandwidth.

We welcome contributions on efficient algorithms, protocols, and implementations in areas including homomorphic encryption, zero-knowledge proofs, secure multi-party computation, blockchain consensus, threshold cryptography, and post-quantum cryptography.

Proceedings will be published in [Springer's LNCS series](#).
